

## WILSON PHRASE SORDID UNTRUTH SAYS ROOSEVELT

Roughrider Went Vigorously After the President in Speech in New York Yesterday—Says Wilson Proves To Be Only a Buchanan

### PUTS NATION'S BELLY ABOVE ITS SOUL

Time of World Cataclysm Called For Leaders Like Washington and Lincoln and Had Only a Vacillator, 'Too Proud to Fight'

(Associated Press by Federal Wireless.)  
NEW YORK, November 4.—Woodrow Wilson, president of the United States, was denounced by former President Theodore Roosevelt last night, at a monster meeting addressed by Roosevelt at Cooper Union as having uttered a sordid untruth when he said "You cannot worship God on an empty stomach nor be a patriot when you are starving."

Roosevelt, in his characteristically vigorous manner, charged the Democratic administration with having humbled the United States in the eyes of the world through its foreign policy. Only a Buchanan.

"A world cataclysm had overwhelmed civilization," said the former President. "The time demanded a Washington or a Lincoln. But unfortunately they were granted only another Buchanan."

Roosevelt denounced Wilson's administration as vacillating and weak. As a party to the Hague Treaty, he said the United States should not have stood idly by while Germany overran helpless Belgium. This country should not have permitted its citizens to be murdered and drowned at sea by a European power, nor to be ruthlessly killed on land by Mexican bandits.

Instead of "keeping us out of war," the Wilson administration, Roosevelt declared, had actually involved us in war with Mexico, war in which many American lives were uselessly wasted and no good attained.

A Sordid Untruth.  
Referring to President Wilson's alleged statement recently at Long Branch that "you cannot worship God on an empty stomach nor be a patriot when you are starving," Roosevelt said:

"No more sordid untruth was ever uttered. Such a sentence could be uttered only by a President who cares nothing for the nation's soul, a President who believes that the nation puts its belly above its soul. Does President Wilson think that Washington's men at Valley Forge were not patriots just because they were starving?"

## QUARANTINE GAS IN SHIP'S HOLD KILLS

(Associated Press by Federal Wireless.)  
SAN FRANCISCO, November 4.—Fumes of poisonous gas used for disinfecting purposes aboard the Norwegian steamship Rind Amundsen caused the death last night of one man and the serious illness of three others. The man who was killed was Jacobus Kramer, a canal passer. Chief Officer Hendrickson, Second Officer Nelson and a sailor named Jorgensen were overcome by the fumes and taken to the hospital, where it is expected that they will recover.

The quarantine authorities say that the accident was due to the sailor's disregard of instructions given them when gas was applied.

## PARRAL NOT IN VILLA POSSESSION

(Associated Press by Federal Wireless.)  
NEW YORK, November 4.—Andreas Grein, the Mexican inspector general of consulates in the United States, has been advised from the City of Mexico that Parral is still being held by the Carranzista garrison, he says.

IT COSTS MONEY TO  
ELECT A PRESIDENT

(Associated Press by Federal Wireless.)  
WASHINGTON, November 3.—Supplemental reports filed by Republican and Democratic national campaign managers on expenses of the political fight show that the Roughrider nation's fund total is \$2,612,535, and the Democratic, \$1,310,729.

A FAVORITE RUB DOWN

The golfer, the football player and the second athlete know the value of Chamberlain's Pain Balm. It is just the thing for a rub down after a hard game. All soreness disappears like magic and sprains and swellings are relieved in less time than by any other treatment. For sale by all dealers. B. W. Smith & Co., Ltd., agents for Hawaii.

## BRITAIN AND FRANCE SOLVENT SAYS PARTNER OF J. P. MORGAN & CO.

(Associated Press by Federal Wireless.)  
CHICAGO, Illinois, November 4.—Henry Davidson, of the firm of J. P. Morgan & Company, New York, who returned to the United States this week from London, where he arranged for a loan to the British government, at a banquet here last night of bankers of the Middle West, declared that his recent trip to Europe had given him faith in the solvency of both Great Britain and France.

Mr. Davidson reiterated his former statements, made upon his return to this country, that if the United States hopes to get its share of the trade of the Entente Allies after the war, it must show them the same courtesies that a business man would show a prospective customer.

"After the war ends," Mr. Davidson said, "the countries of Europe are going to buy where they can get the best prices and the best credit accommodations. If we want to get our share of their trade, we must extend credit to them. Otherwise, they will buy where they can get the credit they want and need."

## EVERY SQUARE MILE COSTS FIVE THOUSAND MEN TO ALLIES

(Associated Press by Federal Wireless.)  
BERLIN, November 4.—The combined French and British losses in killed, wounded, prisoners and missing for the past four months, during which the French and British were pushing their great offensive on the Somme front, totaled 600,000 men, according to an estimate made public here today by the German western headquarters.

The statement says that each square mile of territory captured by the Entente Allies cost them 5000 men. It is believed that this estimate is conservative, headquarters says, as the British in their list of losses admitted total losses of 372,000 men up to the end of September.

## GERMAN WARSHIPS RAIDING IN CHANNEL

(Associated Press by Federal Wireless.)  
BERLIN, Germany, November 3.—German naval small craft raided the shipping route between the mouth of the Thames river and Holland in daring fashion today. Several steamers were searched and brought to port. Four British cruisers tried in vain to block off the Germans by shelling them but could do no damage.

## EXPOSITION AVIATOR KILLED IN ARGENTINE

(Associated Press by Federal Wireless.)  
SAN FRANCISCO, November 3.—Silvia Petrossi, well-known aviator during the exposition, fell with his airplane at La Plata, Argentina, today, and was killed, according to a cablegram. He was doing the "loop-the-loop" in a monoplane.

## VILLISTAS TORTURE PRISONERS THEY TAKE

(Associated Press by Federal Wireless.)  
EL PASO, November 3.—Villista bandit soldiers are cutting off the ears of captured Carranzista followers and sending the ears to the Villista commands, according to a refugee who has arrived here. He says he saw sixteen earless Carranzistas at Jimenez and that at Santa Rosalia the ears were cut off 83.

## NEW YORK BOMB PLOTS BROKEN UP

(Associated Press by Federal Wireless.)  
NEW YORK, November 3.—Six arrests were made by the police today and as a result they believe that several bomb plots, growing out of labor troubles, have been thwarted. The police learned the plans were afoot to dynamite two of the subway stations. Those arrested were charged with sending dynamite into the city and causing the recent explosion at the 110th street station. The police said that several of those arrested belong to the strikers and that the atrocious employees' union supplied them with funds.

## NEW FLYING RECORD SET BY CARLSTROM

(Associated Press by Federal Wireless.)  
NEW YORK, November 3.—Victor Carlstrom, the aviator flying from Chicago to New York, arrived here this morning at 8:55 and started later to Washington with a letter from Mayor Thompson of Chicago to President Wilson. He has averaged 137 miles an hour, setting a new record.

## WILL SEE WHAT TANK CAN DO WITH BANDITS

(Associated Press by Federal Wireless.)  
SAN ANTONIO, November 3.—A caterpillar tractor of the "tank" type made famous by the British in fighting the western front has been purchased by the army for use in the Big Bend district against the bandits.

## HUGHES WINDING UP HIS CAMPAIGN FULL OF CONFIDENCE

In Series of Speeches in Brooklyn He Vigorously Assails the Democratic Record

### CAMPAIGN MANAGERS DIFFER IN FORECASTS

Socialists After Independent Candidacy, Announce Republicans As Well In the Lead

(Associated Press by Federal Wireless.)  
NEW YORK, November 4.—"I return home, pretty sure that the fight has been won and that when the votes are counted next Tuesday night, it will be found that a Republican President has been elected," said Charles Evans Hughes yesterday when he arrived in Brooklyn at the end of his last journey as Republican candidate for the Presidency of the United States.

During the day Mr. Hughes delivered four addresses in Brooklyn, in the course of which he assailed the administration's foreign policy, both in Mexico and in Europe. He argued that whereas President Wilson was running for reelection on the ground that he "kept us out of war," he had really been at war with Mexico.

Mr. Hughes reiterated his former statements that if the administration had in the beginning adopted a firm policy and made the nations of Europe understand that he meant what he said, the Lusitania would never have been torpedoed, with the loss of more than one hundred American men, women and children.

Consistency Needed.  
If the administration, he added, had been consistent in its dealings with Mexico, instead of befriending first the one and then the other, the United States would not now be spending millions of dollars in maintaining an army in Mexico and on the border between that country and the United States, and hundreds of Americans who have fallen victims to the various warring factions that for years have overrun Mexico would today be alive and happy.

Coincident with the return of Mr. Hughes to his home State, betting on the election took a turn yesterday in his favor. Early in the campaign the odds were ten to six that Mr. Hughes would be elected. Later on, however, the odds dropped to ten to eight. But yesterday, after looking over the ground, the betting fraternity shifted the odds to ten to seven. Odds of five to three were offered that Hughes will carry New York, and the same odds were offered that he would even win out in Ohio.

### WILCOX CONFIDENT

Chairman William R. Wilcox of the Republican national committee issued a statement last night expressing complete confidence in the election of Mr. Hughes by a heavy majority. His estimate gives the Republican candidate more than three hundred votes in the electoral college, and he says Hughes has won all States that are normally Republican.

Telegrams received here from Chicago from Alvin T. Hart, western manager of the Republican campaign, express equal confidence in the success of Mr. Hughes. Sentiment in favor of the Republican candidate, he says, is "more favorable than ever, and previous time during the campaign, included in the list of states that Mr. Hart claims will be Republican are Wisconsin, Indiana, Illinois, Ohio, North and South Dakota, Minnesota, Idaho and even Missouri and Kentucky.

### Democrats Unafraid

Thomas Walsh, Democratic campaign manager in the West, however, makes equally strong claims for the success of this candidate. Prospects for Wilson, he said, were never brighter, and he added that reports indicated that every State in the West claimed by the Republicans was either safely Democratic or in the doubtful class.

### Broken Bourbon Pledges

Mr. Hughes on his arrival in Brooklyn was escorted to his hotel by the Hughes College Men's League. Before reaching Brooklyn he made five speeches en route from Albany. Addressing a large crowd at Hudson he said: "The Democrats were as eloquent in 1912 as they are today over what they do for labor and for business. They promised to reduce the high cost of living. They have not reduced it. But they have been eminently successful in reducing the chances for making a living."

The Hughes woman's special train, which for weeks has been traveling through the country, carrying a large number of prominent women supporters who were campaigning for the Republican candidate, returned to New York today after having traveled a total of 11,761 miles. Twenty-eight states were visited, and 191 meetings were held. The women in charge of the train, upon their return to this city, expressed strong confidence that Charles Evans Hughes would be the next President of the United States.

Dr. H. Clemens, the dentist, will leave Honolulu on the Persia Maru for the Orient. He plans to be gone about three months, during which time he will visit China, Japan and other countries.

## DEUTSCHLAND WILL HAVE SISTER OF U-53 AS A CONVOY HOME

(Associated Press by Federal Wireless.)  
NEW LONDON, November 4.—The German merchant submarine Deutschland will be conveyed back to its home port by a war submarine, according to a statement made yesterday by Captain Koenig of the Deutschland. He states that the U-57, a sister of the U-53 which recently raided against the shipping of the Allies off Nantucket, is expected to meet his ship somewhere outside of the three-mile limit and accompany it back to German waters. The Deutschland will leave, probably within the next few days.

Reports that there are a number of British and French cruisers patrolling beyond the three-mile limit, waiting for the reappearance of the Deutschland in the open sea have not been confirmed.

The announcement of Thursday that a German submarine had been sighted four hundred miles east of Cape Henry made many to believe that this is the U-57, waiting for the Deutschland.

## DICTIONARY BEING WHOLLY REVISED

Kamaaina Pastor Being Assisted By Queen Liliuokalani In a Big Work

All the preliminary work in the compilation of a new Hawaiian dictionary, appropriation for which was made by the legislature, has been completed by Henry H. Parker, according to a report made by him at a meeting of the public archives commissioners last Wednesday, and he is now beginning the more arduous part of the labor, which he does not think can be completed in less than two or three years.

Taking Andrews' Dictionary as a basis, Mr. Parker has gone through that word by word, revising the definitions and making notes for use in further work. This dictionary contains more than 15,000 words. And in addition to those, Mr. Parker has added several hundred new ones.

The work remaining to be done, in addition to defining new shades of meaning, includes the marking of accents, in itself, a laborious task.

Queen Liliuokalani, who volunteered to aid in the work, has already prepared a list of about 3,500 words. Others familiar with the Hawaiian language have also promised to send in their lists. Of course, there will be many duplications, but those will be weeded out, and Mr. Parker expects to find these lists of the greatest aid in compiling a complete dictionary.

## SCHOONER SAW FIVE DROWN IN STORM IN ANTOFAGASTA

Fifty-two days of uneventful sailing were completed by the four masted schooner Sophie Christensen when that vessel appeared off port yesterday afternoon from Antofagasta, Chile. The schooner was speedily fumigated and released by the quarantine officials and Captain McCarron brought his craft to Pier 16 shortly before five o'clock.

Captain McCarron states that practically the entire trip was made with excellent weather but that her stay at the nitrate port proved to be a stormy one, the first northern gales known in years sweeping the coast. Antofagasta is an open roadstead and several fatalities occurred.

Shortly before the Sophie cleared a small boat going ashore with three German captains and two men was swamped and all five men were drowned. Two of the captains were of German refugee ships in the port and the other was master of a Chilean ship. At Mejillones, which is credited with one of the finest harbors on the coast the schooner rose to such proportions that every lighter in the place, numbering 120, was driven ashore, something unprecedented in forty years.

The Sophie has 8458 bags of fertilizer for the Hawaiian Fertilizer Company.

## BURGLARS BUSY LAST NIGHT ON WATERFRONT

Two Japanese stores on Queen Street opposite Pier 15, were robbed last night. The burglars gained entrance through the back doors in each store and stole the contents of the cash registers and safes in each instance. Detectives were detailed on the case but up to early this morning no arrest had been made.

The stores, situated side by side, are practically under the direct glare of a large street light.

According to an officer who made an examination of the premises following the robbery, the robbery was carefully planned. In effecting an entrance "jimmies" were used. The rear windows were opened by cutting the panes with a glass cutter and the lock was removed by the aid of a sharp crooked iron instrument.

## ALLEGED PLOT TO STEAL ELECTORAL VOTES UNCOVERED

Republicans Said To Have Shipped Sixty Thousand Negroes From the South

### DISTRIBUTED THESE IN THREE CLOSE STATES

Department of Justice Authorizes a Warning To Alleged Conspirators

(Associated Press by Federal Wireless.)  
WASHINGTON, November 4.—That a gigantic conspiracy is afoot to steal the electoral votes of three States, Indiana, Illinois and Ohio, by the Republican workers, is the statement made last night by officials of the department of justice.

According to this statement, Republican campaign managers have recently shipped sixty thousand Negroes from the South into these three States, where, presumably, it is hoped to vote them.

A preliminary to this wholesale importation of fraudulent voters, it is charged that the registration lists in many places throughout the three States have been padded with the names of non-existing persons, under which names the Negroes will go to the polls. In one city the lists have been found padded to the extent of several thousands.

Other plans for election frauds have been made, say the officials.

Attorney General Gregory last night sanctioned a statement containing these allegations and containing a warning against those who may attempt to carry through the conspiracy.

The warning also states that any attempts that may be made to intimidate voters in order to keep them away from the polls or influence their votes will be prosecuted to the full extent of the law.

## MADISON GIVES WINERIES CREDIT

(Associated Press by Federal Wireless.)  
FRESNO, California, November 4.—Thirty per cent of the Muscat grapes of the Fresno grape district of the San Joaquin valley, valued at two and a half millions of dollars, were destroyed by the early rains of this year, so far as their value for raisin making was concerned, according to a statement issued here yesterday by James Madison, president of the California Associated Raisin Company.

Mr. Madison stated that the wineries of the San Joaquin valley, which manufacture sweet wines, purchased a million dollars worth of the damaged grapes, so the loss to the growers was lessened by that amount. If it had not been for the wineries, he said, the loss would have been total.

A succession of heavy rains came unusually early this year. Beginning about the end of the last week of August, rains fell almost constantly for several days. This was just at the time when the bulk of the raisin grapes were on the drying trays, and as a result a large proportion of them were damaged or destroyed, so far as their usefulness for making raisins was concerned.

## RAISIN GROWERS SAY MADISON FOR 'WETS'

The raisin growers of Fresno and other grape producing counties of the San Joaquin Valley are indignant at the action of James Madison, manager of the California Associated Raisin Company, in signing the company's name without authority to his argument against the two prohibition amendments, according to a late Fresno paper.

The "wets" got Madison to sign their arguments, they say, in order to fool the voters into believing that the raisin growers are opposed to prohibition. As a matter of fact, a large percentage of the raisin men are in favor of prohibition because they believe it will help their business, and they are now circulating and signing the following protest:

"We, the undersigned members of the California Associated Raisin Company, having notified the communications of James Madison, supporting the 'wets,' do hereby enter our protest against the use of the name of our association, thereby conveying the impression that he is acting and speaking for our company. This, we claim, is assuming something that is entirely untrue, and by no means an expression of our sentiment, as we are sure that no one thing could so enhance our land holdings in this State as the adoption of the prohibition amendments."

"We respectfully ask that James Madison cease using the name of the California Associated Raisin Company to promote the liquor business."

## SURETY COMPANY GIVEN RIGHT TO QUARRY ROCK

A further step in the Hilo Break water pilikia has come to light through the entry at the recorder's office, November 1, of a license granted the American Surety Company of New York, by the Pacific Sugar Mill to quarry rock at Waipio.

## QUICK SENDING BY MARCONI SYSTEM

Accelerator, Planned When Station Was Built, Is Now Being Given Its Tests

The Wheatstone accelerator for the local Marconi station, which it was planned to install a couple of years ago when the plant was being built, and which was described in The Advertiser at the time, has been given a testing out by Messrs. Pillsbury and Winterbottom, the two Marconi officials now here awaiting the opening of the Hawaii-Japan service. This device makes the sending of messages purely mechanical.

The message to be sent is punched in a long tape on the same principle used in preparing a record for a mechanical piano. The roll, or tape, is then run through the "transmitter" at any speed the operator desires, and can be repeated any number of times, the personality of the sender being thus entirely eliminated.

An apparatus with an ordinary typewriter keyboard makes the operation of the tape perforator and therefore the whole system possible for the average stenographer.

### Inventing Mechanical Receiver

Messrs. Winterbottom and Pillsbury are at work on a mechanical receiver which will "take" the wireless message on wax cylinders or discs just as the dictograph records the human voice. When these delicate receiving instruments have been so perfected that they can be used commercially the capacity of the great Marconi Wireless plant will be almost unlimited.

The Marconi officials have been experimenting with this method of transmission for two weeks and have found it flawless in sending either to Japan or America.

It quadruples speed, prevents personal error, and eliminates operators. The apparatus is directly connected with the generators and has absolute control of the 300-kilowatt current at the Koko Head plant and of the 500-horse power turbine at Kahuku.

## LAST HONORS PAID TO OFFICER DEAD

CANTER, November 2.—At eleven thirty Tuesday morning, in the post chapel, was held the funeral services over the remains of Lieutenant V. V. Enyart, Chaplain William Aiken, First Infantry, officiating. The chapel was crowded with the many friends of the dead man, who gathered to do him a last and honor. The men of the deceased's regiment could not find room within the building, and waited before the chapel while the services were being completed.

The church was massed with the flowers sent by the many friends; and the tribute from the men of Company "C," in which Lieutenant Enyart was serving when he met his death, was a beautiful token of the esteem in which he was held by his men. Chaplain Aiken conducted a very impressive service, and a final softening touch was added thereto when Mrs. Aiken sang Cardinal Newman's beautiful song of prayer, "Lead Kindly Light."

After the service the body was escorted to the Lethum Station with full military honors. Lieutenant Enyart, First Infantry, commanded the armed escort, a platoon composed of the men of the late Lieutenant's company. Six officers who were his comrades, Lieutenants J. N. Smith, F. L. Riley, E. C. Rose, Roy Jones, C. M. Iverskamp, and O. K. Sadler, were the honorary pallbearers; and six sergeants from Company "C" were pallbearers. All the officers of the regiment followed the bier, and the eight hundred men of the First Infantry completed the cortege, which was led by the band, playing a funeral march. Captain Hulstead, the deceased officer's company commander, had charge of the funeral arrangements.

SCHOONER OFFICERS  
CHARGED WITH MURDER

(Associated Press by Federal Wireless.)  
SAN FRANCISCO, November 3.—Federal warrants were issued today charging Capt. D. O. Killman of the American schooner Henry B. Hall, and Mate Fred Hansen with murder. Six members of the crew of the schooner, which has arrived here, exhibited bruises, which they said they received a brutal treatment by the officers last September off Australia. They say that one sailor was killed by a blow on the head and another was murdered after the Hall left Port Townsend for Durban, South Africa.

## TAKE NO CHANCES

Doan's Backache Kidney Pills are not a cure-all. They are for one thing only—kidney and far fifty years have been in successful use in every part of the civilized world. In using Doan's you take no chances, for this is a simple remedy, perfectly harmless and can't cause a habit. No other remedy is so strongly endorsed.

"When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy, but distinctly for Doan's Backache Kidney Pills and no other. Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50c a box (six boxes \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., or Benson, Smith & Co. agents for the Hawaiian Islands.

## LIEUTENANT-COLONEL MEARNS IS DEAD

(Associated Press by Federal Wireless.)  
WASHINGTON, November 3.—Lieut. Col. Edgar Mearns, retired, died today. He will be buried at Arlington cemetery.

## ITALIANS ARE DRIVING AHEAD TO OBJECTION

Austrians Defeated Along Whole Front From Carso Plateau To Adriatic, Losing Strong Positions, Guns and Many Prisoners

### BRITISH SURPRISE THE GERMANS AT NIGHT

Strong Raiding Party Seizes Trenches At Gueudecourt, Wiping Out Defenders Who Had Expected a Quiet Night's Rest

(Associated Press by Federal Wireless.)  
LONDON, November 4.—The outstanding features of the war news yesterday were the reports from Rome, announcing the continuation of the drive upon Trieste. The Austrians, say the official Italian reports, are being defeated along their whole defensive front from the eastern edge of the Carso plateau to the shores of the Adriatic, with the Italians seizing one strong position after another.

Ten Thousand Prisoners.  
In fighting yesterday the Austrians offered much less resistance to the Italian advance than on the previous day, falling back and abandoning guns and supplies. The impetuous troops of King Emanuel, who press every advantage and inflicted heavy losses on the retreating foe.

Prisoners taken by the Italians yesterday numbered 3048, making a total for two days of practically ten thousand men. The total Austrian casualties in the drive are estimated to be nearly 25,000.

### British Spring Surprise

Last night, after it had been taken for granted that the Austrians fighting for the day was over, the British made a surprise attack upon the Germans east of Gueudecourt, taking a number of trenches and wiping out the defenders, many of whom surrendered. The attack followed a number of feints against the same positions earlier in the day, the failure of the British to drive any of these early attacks home being described in yesterday's Berlin despatch as due to the strong German defense. The final attack, made in earnest, was a complete success.

Other raids were carried out after midnight by the British storming parties entering German lines near Arras and returning with prisoners and some machine guns.

### Somme Front Quiet

On the Somme front yesterday there was comparative quiet, the French consolidating the gains made the day previous and confining their aggressive to active artillery work. The Germans bombarded the advance working parties of the French but delivered no counter attacks.

On the Verdun front the French moved forward and occupied Fort Vaux, after waiting until the mines laid by the Germans had been exploded. The Germans made no effort to prevent the re-occupation of the demolished fortress.

### Progress Toward Bucharest

Violent fighting continues to mark the Austro-German advance in the Rumanian sector, in the attempt to drive an army in the direction of Bucharest. The Rumanians are pressing slowly forward, fighting on every yard gained, and the Rumanians falling back and offering a desperate resistance. The Berlin despatches state that the Rumanians are making headway south of the Danubian border at this point.

Despatches from Bucharest announce that the Rumanians have cleared their territory of invaders in the region of the Jassi plateau, where King Ferdinand's son has crossed back into Transylvania and is up and about the villages of Tataru and the heights of the same name. In the Buzza Valley the village of Siral has been cleared of Austro-Germans and occupied.

### No Balkan Changes

There has been little change in Macedonia, the one success being credited to the British, who drove the Bulgars back on the Struma River and seized the town of Alibon.

On the Greek front, Berlin announces that the Slavs were repulsed seven times in a desperate effort to advance on the east bank of the Narayuska River, near Halicz. The Russian loss was heavy, say the Berlin despatches.

The Petrograd despatches covering the same operation dispute those of Berlin, claiming that the Russians made marked advances and drove the Austro-Germans back with heavy losses.

## TREMENDOUS WASTAGE OF TONNAGE IN WAR

(Associated Press by Federal Wireless.)  
NEW YORK, November 3.—The Journal of Commerce today published some striking figures on the tonnage of ships sunk during the war. The Journal finds that 1820 ships of a tonnage of 3,328,584 have been sunk since the war began. The Entente Powers lost about seventy-five per cent of this, while eighteen per cent of neutral vessels and seven per cent of vessels of the Teuton powers.

## LIEUTENANT-COLONEL MEARNS IS DEAD

(Associated Press by Federal Wireless.)  
WASHINGTON, November 3.—Lieut. Col. Edgar Mearns, retired, died today. He will be buried at Arlington cemetery.
